Ice, Ice, Ice!

We don't like ice! It is difficult to stay mobile and mobility is important to independent living! Please look around your property and business to ensure that snow and ice barriers are removed from entrances, especially for businesses and offices!

Now onto more important things! Our new class catalog is ready and will be posted to our website and Facebook this week! What to you see what is we doing! Register early as some of our classes are limited in seating due to the hand-on experience. Call us at the office 815-625-7860. We will also be happy to mail you a copy if you would like one!

Never end with advocacy! The new legislators are heading back to session this week and we need your voice! A budget must be passed or NICIL as well as other social services will be forced with having to make very difficult decisions including how long we are able to stay open. Use your advocacy voice, be head and let's refocus Illinois!

We would love to hear from you!
